Forever Beautiful™

GLASS THAT LOOKS LIKE NEW FOR A LIFETIME

GUARDIAN SHOWERGUARD®

Hard water, heat, humidity, soap and even cleaning agents can spot, discolor and corrode the surface of ordinary glass, making it look dull over time. ShowerGuard glass provides permanent, proven protection. It stays beautiful for a lifetime—guaranteed.

ShowerGuard glass is coated using a patented technology. The result is an invisible protective barrier that prevents the glass from showing signs of age and build up of permanent damage. Let ShowerGuard glass complement your bathroom design with lasting beauty.

ENVISION YOUR PERFECT BATHROOM

SHOWERGUARD CLEAR

The original choice for showers that stay beautiful.

ShowerGuard Clear is the simplest way to bring the power of ShowerGuard technology into your home. The permanent protective coating is applied to clear glass during manufacturing, with no visible difference in clarity and the same ease of cleaning as ordinary glass. What you will notice is how great it looks without corrosion, scum or stains for years to come.

Make your shower enclosure an enduring beauty with ShowerGuard Clear. It is available in 1/4" (6mm), 3/8" (10mm) and 1/2" (12mm) thicknesses.

SHOWERGUARD ULTRACLEAR

The ultra-clear option for stunning clarity.

Show off tile, tub and fixtures with ShowerGuard UltraClear. Utilizing Guardian UltraClear® glass for a stunning effect, ShowerGuard UltraClear has higher transparency and neutralizes the green cast of standard glass for a crystal clear result that lets the design and color of your bathroom shine through. This glass loves natural light and visually opens your space like no other.

With ultra-clear edges, ShowerGuard UltraClear is ideal for clear, frameless enclosures. It is available in 3/8" (10mm) and 1/2" (12mm) thicknesses.

HAPPILY EVER AFTER

THE SHOWERGUARD DIFFERENCE

In independent laboratory testing, ShowerGuard and competitive products were exposed to hard water with dissolved silicates. After repeated cycles, ShowerGuard remained permanently protected and easier to clean.

OUR LIFETIME LIMITED WARRANTY

Unlike spray-on products, the protection of ShowerGuard never breaks down and never needs to be reapplied. And unlike other so-called permanent protection products, ShowerGuard is backed by a robust lifetime limited warranty.

WHAT PEOPLE ARE SAYING

"I am so glad I bought ShowerGuard glass. We've had our new shower enclosure over a month now, and still not a single drop of water shows up on it once it's dry. Just a quick squeegee and it's beautiful, clear and clean, just like brand new. Absolutely no evidence of soap scum bonding to it. This purchase was well worth it, and I would recommend it to everyone!"

Meredith in Morgan Hill, CA

"I would recommend anyone who is remodeling a bathroom to get Guardian ShowerGuard. We recently remodeled our master bath and when we found out ShowerGuard was available, we didn't think twice about getting it. The low maintenance is well worth the money spent. Having ShowerGuard makes your glass look sparkling clean all the time."

JoAnn in Clarkston, MI

CARING FOR YOUR SHOWERGUARD GLASS

Your ShowerGuard glass enclosure will look new for a lifetime with easy care using recommended cleaning products. Unlike ordinary glass, it won't stain or dull over time, so your cleaning routine is always rewarded with clear, beautiful results.

A soft sponge, common household cleaner and a water rinse is all it takes to keep your ShowerGuard glass enclosure looking like the day it was installed. Use one of the many recommended cleaning products listed on the back cover for best results. No matter your preferred household cleaner, be sure to follow the instructions provided by the manufacturer.

RECOMMENDED CLEANING PRODUCTS

ShowerGuard's patented technology helps keep minerals, scale and soap scum from permanently ruining your shower's appearance. A soft sponge, common household cleaner and a water rinse is all it takes to keep your ShowerGuard glass enclosure looking like the day it was installed.

Below are products that Guardian has tested for efficacy. Based on those tests, Guardian recommends using these products when cleaning your ShowerGuard glass. Guardian is not affiliated with any of the brands or companies, has no commercial relationship with them, and are not sponsored by any of these brands/companies:

For best results cleaning ShowerGuard glass use:
